THE PICTORIAL HISTORY OF THE UNITED

WITH NOTICES of other portions of America, by S. G. Goodrich, author of Reter Parley's Tales, for the use of schools. The main purpose of the work is to furnish a full, accurate, and just history of the Westers Continent, which may attract and render this subject a common school study throughout the land. While, therefore, it is full, in point of matter, it is so arranged as to be easily mastered by the pupil, and without excessive demands upon the attention of the teacher. It will be remarked that the work is largely illustrated with engravings of scenes and incidents, together with port aits, plans, and maps, designed to convey correct ideas of men and things, and at the same time taking care that the history shall be

ADDRESS TO THE PEOPLE OF THE UNITED STATES.

UNITED STATES:

In looking around upon mankind, the philanthropist cannot but find too much to lament. The various ills to which his rice are subject, and which are daily and hourly hurrying thursands to the grave, and some, tor, in the morning of life, when the hopes of parents and friends seemed budding into maturity, are sufficient to a waken the liveliest sympathetic of these whose hearts are not called to every sympathetic feeling. When by the huggard look, the hurried breathings and the hollow cough of those with whom he has been im the habit of holding sweet intercourse, perhaps of his own blood reliations, he sees the spark of it e dmily glumaering or just ready to go out, how does his lenging de ires, increase that the mind of man, omnipotent almost as it is, could devise some means, by which, under Providence, the consequences of these ills might be stayed; his better nature becomes excited, and he is stimulated to his task, in view of the mighty results which may flow from his toits. Thus we see the market crowded with nostrome.

in view of the mighty results which may how from his lois. Thus we see the market crowded with construme whose virtues, if the half of which were true, would cause Death tiself to die and man become immortal. In presenting the Panagea of the Danbellon and To MATO to the public, we would say that we do not claim for it, that it shall be a specific for all the diseases to which the human frame is subject, but for all for which it is recommended. It has for its recommendation the struction of the surgicular of the true distinguished and entirely.

commended. It has for its recommendation the sanction of the experience of the most distinguished and enlightened physicians on the globe.

The proprietors deem it unnecessary to state the cost to which they have been at, or care which has been taken to select, in the first place, the REST articles, and then devise the means by which their whole strength may be given to the public. They ask for it only that need of strention to which the sick and suffering in the commutativity may deem it entitled. They are willing that its healing properties should be its only recommendation, and that the relief and health which is sure to come to the suffering and discussed after its use should proclaim its virtues; they intend, and have made, such arrangements. and that the relief and neath which is sire to come to the suffering and diseased after its use should proclaim its virtues; they intend, and have made, such arrangements that it shall have an extensive sale, and that they may receive a share of its Iteal g benefits. The Panacea is composed, as all must be aware who know anything of the DANDELION, TOMATO, and SARSAPARILLA, its orificial ingredients, from the most innocent, as well as the most effection plants in the vegetable kingdom.—There is scarcely an individual who is not well acquainted with the efficacy of the DANDELION, TOMATO, and SARSAPARILLA, and who do not know that in those diseases in which a complete and radical change in the composition of the blood, in the secretions of the Liver, and in the formation of all the solid parts of the blody are regarded, that there are no remedies which will for a moment compare with them; in fact, in all those regions in which liver diseases are prevalent, or where, from the nature of the chimate, any impririties of the blood exists, the Dandelion grows in great quantities, and is exists, the Dandelion grows in great quantities, and is eagerly sought after. It seems from the great abundance of the Dandelou, in all the regions where such diseases or any that flow from them exists that it was the design of the Greator that, where the maindy was found, the re-medy also might be obtained. They are therefore offer-ed to the public with full confidence for the relief of those discales for which he articles themselves are so often re-commended by all our first phys plans.

A REALLY Good ARTICLE—Always ansions to benefit our renders in eve y possible way, we would now recommend to their notice an article prepared by Kanson & Sieveis, Druggists, which is fully deserving of confidence and every way worthy to be relied on. I we mem the Dandelion and Tomito Panacea. Compounded from nine of the best medicines produced in the vegetable kingdom; the Dandelion, Tomito, and Sarsaparita forming the chief ingredients, which are well known and universafty admitted to contain the most healthful properties the science of medicine has yet discovered. We called at the store of these gentiemen ye terday and had the pleasure of pecusing letters, some of which were from Physicians of the highest re-pectability, and others frem gentlemen of undoubted integrity, all speaking in the highest terms of the good effects of the medicine. They also hold in their possession, unnumerable certificates from persons, some with whom we are acquainted, and in whose word we can place the fullest confidence of the wonderful cures performed by its use; such as Asthma, Erysipetas, Dyspepsia, Salt Rheim, Chronic Diseases, Rheimatism, scrotina, and for all impurities of the blood, and from our own knowledge and confidence in the gentlemen who prepare the medicine and the trial we have had of insvirues, we have no hesitation in recommending as one of the best a teratives and purifiers of the blo all now before the public. For anything in the apothecary line, we would recommend the store of these gentlemen, 325 Washington street, as inferior to none in this cary; their toplying the above from the Mait, we are trappy in high moral worth and strict integrity being sufficient gua-ranty to the public against any attempt at imposition. In copying the above from the Mail, we are fra, by in-being about to enderact every word of a having tried the Danifolion and Tomato Paracea curselves with the hap-piest effects. The proprietors are really deserving of patronage, and we are sure that success will crown their efforts. Give them a cull at their store, Amory Itali-buildings, 323 Washington street, second door north of West street.— Daily Times:
